

## CMT-1003 : : Construction Metal Rust-Proof Top Paint

- Introduction / Main features**
- Water based anti rust construction metal top paint
  - Water based nanometer resin, nano size enabling to penetrate into the tiniest pores
  - Good adhesion and impact resistance
  - Compact membrane, excellent oil, water, rust and chemical resistance
  - Better than oil based
  - Do not contain zinc, therefore no toxic gas on welding and cutting
  - Nano size particle - deeper penetration, better bonding, better protection
  - Water based product - easy cleaning, less odor, non-flammable, quick dry, environmentally safe

**Application** Public use construction metal or steel structure. Applicable to all metal products.

**Coverage** Depending on surface and type of metal

Technical Index	No	Detected Items	Performance Index
	1	Container condition	Normal
	2	Color and appearance	Flat and without defect
	3	Rigidity (Pencil)	> HB
	4	Impact strength (kg/cm)	> 50
	5	Adhesive force (level)	1

**Statement:**  
This brochure is based on our testing and experience and can be used as a construction guideline. Given the fact that many factors can affect the end result, we are only responsible for the quality of the product. As the technological progressing, we reserve the right to modify this specification without notice.
